6) Once the Paypal is successfully completed you will receive an email with a link for each song. For example, an LP with 10 tracks will generate an email with 10 download links. This helps to alleviate problems with an internet connection malfunctioning during download. Normally you will have 2 or 3 opportunities in a 24 or 48 hour period to download track via a link. After that period expires or the number of allocated attempts are exceeded, the links will no longer work.

7) In case of any problems, you can email the shop admin via the 83db.com contact page or via the email address linked to the paypal transaction and I will deal with the problem.
